

I love weddings and I've been photographing them for over 25 years. I love the excitement, the nervousness, the details, the flowers, the food, the love. I LOVE the love! To keep our clients happy and our vision fresh, we photograph only a select number of weddings each year, so book early to be sure we save the date for you.

We have photographed weddings all over the world from New York, Germany, France, Martha's Vineyard to Bar Harbor, Chicago to Jamaica, and everywhere in between. Destination weddings are our specialty, even when they are in Maine!

While many photographers are self-taught, I have an education in photography, a BFA and MFA. That means I've studied the intricacies of cameras and lighting, art, design and art history. When I create a photograph, all those years of study come into play.

Each wedding is unique, but they all have a similar rhythm to them. Because of our extensive experience, we know exactly where to be and when to capture all the moments you want to remember, and some you might have not even noticed.

We believe that every couple deserves beautiful wedding photography and we do not discriminate.

P.S. I've been doing this for a long time but I still get weepy at every wedding when the vows are said... I love weddings, did I say that already?
